

# Boone Watershed Partnership, Inc.

## Public Meeting for the Gap Creek Restoration Project!

The Gap Creek Restoration Project is underway! It is a grant-funded project with a budget of \$30,392, most of which is available to assist homeowners/landowners. The project will address erosion and sedimentation in the stream. Come to a meeting to participate in a discussion of how best to spend this money.

**A PUBLIC MEETING WILL BE HELD  
DECEMBER 14  
6 P.M.**

**AT THE ELIZABETHTON CARTER COUNTY PUBLIC LIBRARY  
201 N. SYCAMORE ST., ELIZABETHTON, TN**

If you live or own property in Elizabethton near Gap Creek, you know that it is a valuable asset to the community. Come share your ideas on possible projects that could take place in your yards and neighborhoods and that can help improve water quality the creek. Example projects include bank stabilization for steep or eroding slopes, attractive and functional vegetative buffers, livestock exclusion projects and more. Please plan to attend!

The Boone Watershed Partnership has been involved with many water quality issues and actions over the last 13 years. The Gap Creek Restoration Project offers a chance for residents to be included in the restoration through the use of grant funds. Please do not let your family or your neighbor miss out on this opportunity!
